Re: Senate Bill 268  
77<sup>th</sup> Oregon Legislative Assembly – 2013 Regular Session

Dear Senator Rosenbaum:

Senate Bill 268 is an amendment to ORS 243.910-243.945 that adds language necessary to permit the Public Employees Retirement System (PERS) to disburse funds that were originally provided to fund a supplemental annuity contract of the Oregon State System of Higher Education that included the Oregon University System (OUS) and the Oregon Health and Science University (OHSU).

The Oregon University System initiated the process with this bill as a first step to discharge PERS' responsibility to manage the separate fund. Once statutory authority is established to disburse the funds as described in SB 268, OUS and OHSU will begin work to determine an appropriate pro-ration of the assets held in the separate account. OHSU supports Senate Bill 268 and OUS's efforts to remedy the current challenge to disburse the forfeited assets.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Dan Forbes", with a long, sweeping underline.
