**Subject:** FW: DPSST Follow-Up: Active Shooter Resources

Below are the resources we discussed during our meeting earlier this week. These are all public domain documents and available on the internet.

U.S. Department of Homeland Security Active Shooter Resources  
<http://www.dhs.gov/active-shooter-preparedness>

The Department of Homeland Security (DHS) aims to enhance preparedness through a "whole community" approach by providing training, products, and resources to a broad range of stakeholders on issues such as active shooter awareness, incident response, and workplace violence. In many cases, there is no pattern or method to the selection of victims by an active shooter, and these situations are by their very nature are unpredictable and evolve quickly. DHS offers free courses, materials, and workshops to better prepare you to deal with an active shooter situation and to raise awareness of behaviors that represent pre-incident indicators and characteristics of active shooters.

The New York City Police Department (NYPD) Counterterrorism Bureau released the 2012 Edition of Active Shooter: Recommendations and Analysis for Risk Mitigation. The new edition is updated from the original 2010 Edition, and includes analysis of active shooter incidents through December 21, 2012. This is an easy to read document with lots of useful information. We are still working to pull the data on the agencies we have trained through DPSST classes as well as any training rosters we have for other law enforcement agencies that have submitted them to DPSST for training credit. We are working this through our system and will get it to you as soon as we can.

We will keep you posted and please let us know if we can be of any additional assistance on this important subject.
