I would like to submit this communication in opposition to HB 2595. I have read the bill and see it as nothing less than making civil disobedience a Felony. This is unconstitutional. I believe that the law as it is, is adequate to punish an act of Forrest defense or a union picket or any act of protest (The Oregon constitution states that prison is for reformation not punishment by the way). Our constitutional rights are on the table and the money flowing into the hands of elected employees from corporations such as Georgia pacific and Weyerhauser is not a reflection of the needs of Oregonians, but the profit of the corporation. Please kill this bill.
