Re: House Bill 2692

My wife and I live in South Salem and have two children at Sumpter Elementary. We encourage your support of House Bill 2692 as written.

If you haven't read the book Good to Great, you need to. One of the key characteristics of a great organization is that they first have great people working for them and then they have those people working in a job that best suits their training and talent. This is exactly what this bill addresses in our schools.

There is no way to argue that this isn't in the best interests of students and I am sure that you campaigned on making the wise decisions for our students.

Thanks for serving the State of Oregon.

Sincerely,

T.J. Sullivan
