

Land Owners in Area 93

Our State Representative Mitch Greenlick is preparing a bill for the 2013 legislature that would change the boundaries of Washington and Multnomah Counties, and would move Area 93 (Bonny Slope) into Washington County.

If approved, Representative Greenlick's bill would mean that your Bonny Slope property would become part of Washington County, and would receive services from Washington County. In addition, Washington County would take over all zoning and planning issues, including future development of Area 93, which has been within the urban growth boundary since 2002, but has not been able to receive public water and sewer due to a jurisdictional dispute between Washington and Multnomah Counties."

I SUPPORT REPRESENTATIVE GREENLICK'S EFFORTS, AND WANT MY PROPERTY TO BECOME PART OF WASHINGTON COUNTY
