**Subject:** OPPOSE SB 633 - Please submit as testimony for public hearing

Senate Bill 633 is a poorly considered agricultural policy bill. Contrary to the idea that a “patchwork” of local regulations will stifle growth, it is precisely this local control and decision making that best serves the unique conditions of our various counties. For example, what’s appropriate to Josephine is not appropriate to Lane. Seed and agricultural issues are unique to each climate, culture, and business community. Please oppose SB 633 so our county can maintain control of our regional economic and agricultural future.

Sincerely,  
Nancy Nerenberg

There are times when the government needs to control, but SB 633 is not one of them. We need to maintain control of our regional economic and agriculture future.
