Subject: Opposition to SB 633

I am writing to voice my strong opposition to SB 633 which would strip local counties of the right to make important legislative decisions about seed production and saving by our local farmers. As I am sure you are aware the beautiful state of Oregon has diverse topography, ecosystems and climates. For this reason it is extremely important that local seed producers in their respective counties be able to determine how seed regulation is implemented, as each county is different. We have many local land variations and circumstances that seed growers need to be able to address in their own county jurisdictions. Please do not support SB 633.

Thank you for your time.

Respectfully,

Melissa Matthewson
