Subject: SB633

I am writing to voice my strong opposition to SB633 which would strip local counties of the right to make important legislative decisions about seed production and saving by our local farmers. We live in a very unique and beautiful area, ideal for seed growing. We need to have local growers part of the decision making. Their knowledge and commitment to understanding each area for production is worth listening to and having a part in the decision making process. Until our state government can protect us from Monsanto taking over the industry we must protect the voice of our local farmers. We need the voice of those that truly care for the good of our local economy, community, and land.

Thank you for your time,

I am writing to voice my strong opposition to SB 633 which would strip local counties of the right to make important legislative decisions about seed production and saving by our local farmers. As I am sure you are aware the beautiful state of Oregon has diverse topography, ecosystems and climates. For this reason it is extremely important that local seed producers in their respective counties be able to determine how seed regulation is implemented, as each county is different. We have many local land variations and circumstances that seed growers need to be able to address in their own county jurisdictions. Please do not support SB 633. Thank you for your time.

Respectfully,

Subject: Oregon Countie's right to self govern agriculturally

Dear Sirs,

-- I am writing to voice my strong opposition to SB 633 which would strip local counties of the right to make important legislative decisions about seed production and saving by our local farmers. As I am sure you are aware the beautiful state of Oregon has diverse topography, ecosystems and climates. For this reason it is extremely important that local seed producers in their respective counties be able to determine how seed regulation is implemented, as each county is different. We have many local land variations and circumstances that seed growers need to be able to address in their own county jurisdictions.

Please do not support SB 633.

Thank you for your time.

Respectfully,
