**Subject:** oppose senate Bill 633

I Laura Campbell, Urban Farmer and Local Native to the Jackson County area, oppose Senate Bill 633!

I hold a strong belief that this Bill will perpetuate the underlining issues for our differences within the seed, food, water and land use practices. MY OPINION is that by preventing our people in learning HOW to speak, make decisions and work through or disagreements

(differences) with regard to our Seeds, food, water and land uses will leave us not having any safe land, community or voice to work together within.

This land is DIVERSE in its geography as it is diverse in its religion, personal practices, life styles and Seed propagation's. To simply lay a blanket of State Law to decide "what is best" for Oregon, or region to region is simply selfish and ignorant to the reality of our bountiful Organic or non Organic (conventional) FREEDOMS.

I ask of you please support your communities county to county to speak, vote and make decisions for themselves in regards to that witch will affect them most directly...

"Henry Kissinger declared in the 1970's, 'If you control the oil you control the country; if you control food, you control the population.'"

A strong Nation is based off of a strong backbone..and this backbone are the people to witch that nation strives to support..support us in having the ability and passing down the knowledge of safe healthy seed to the next generations...self sustainable...

I Laura Campbell OPPOSE SENATE BILL 633

and ask for you to open your hearts and minds to the economic, environmental and social impact of such a bill to pass.
