

March 4, 2013

Dear Senator Bates,

This is regarding the 2 Pre-emptive Bills 633+3192

As an Ashland Citizen, I am VERY opposed to SB 633 & HB 3192 - both of which would take control of my local agriculture. Counties need to have control of their own Bio Regions.

If this was the old days, with regular seeds & products, I would not be opposed.

BUT - GMO Seed & products are NOT Normal.

And they are a human health hazard. GMO crops & Food can affect digestive systems, endocrine systems & Neurological systems too. Plus, Farmers are at legal risk here.

Dis-allowing local enforcement of healthy agriculture is wrong.

Please Vote NO on HB 3192 & SB 633

cc: Rep. Peter Buckley
Rep. Sal Esquivel

Thank you,
Cara Crickshank
