

HB 2017

Members of certain faith communities were granted an exemption from Social Security (see United States Statutes at Large, Volume 79 page 391) (for background see Amish Country News Valentine Byler vs. the IRS <http://www.amishnews.com/amisharticles/amishss.htm>) Using SSN for voter registration would seem to bock individuals from voting on religious grounds.

Changing the Electronic Voter Registration System may be cheap but it will not be free. Do we know what this will cost?
