

Greetings Madam Chair and esteemed committee,

My experience as one of the original members of the ACMM serving 2 terms as Chair and currently Vice-Chair and past CEO and BoD of Oregon Green Free, Oregon's largest post OMMP 501c3 for the Education of People wishing to or registered with the Program common good. Through the use of private OMMP Cardholder Polls on OGF's website has brought me to these conclusions of patient needs.

Although focused on Veterans PTSD covers many people and polls ran on website have showed that while PTSD may actually be the first condition of need of Medicinal Cannabis, many must use a secondary qualifying condition to use this herbal supplement.

Hopefully the outcome of passing PDST will also include all citizens of Oregon suffering from PTSD cause by traumatic injury and life experiences that lead to PTSD.

Jim Klahr - Compassionate Oregon
