**Chair Jeff Barker
House Committee on Judiciary**

RE: HB 2403

Thank you for considering the Metal Recycling Industry's position on HB 2403, which modifies the manner in which scrap metal businesses may purchase metal for recycling purposes.

The Pacific NW Chapter of the Institute of Scrap Recycling Industries (ISRI) opposes HB 2403 as introduced. However, with the adoption of the dash 3 amendments our concerns would be eliminated.

If additional amendments are proposed or adopted, we will have to consider those individually and reserve our right to oppose new requirements.

Sincerely,

A handwritten signature in blue ink, appearing to read "Peter S. Van Houten". The signature is fluid and cursive.
