Re: Support for Senate Bill #791 and House Bill #2048 – Repeal of Sunset on  
Architectural Paint Stewardship Program

Dear Chair Bailey and Committee Members:

PPG Industries, Inc. (PPG) supports S.B. 791 and H.B. 2048, entitled “Repeal of Sunset on Architectural Paint Stewardship Program.” PPG is a world leading coatings and specialty products and services company with a strong presence in the architectural coatings industry providing quality paints and stains for both homeowners and professionals for well over 100 years. PPG contributes to commerce in the state of Oregon through numerous independent dealers and national accounts.

The program has been successful in Oregon. In two years of operations, the non-profit organization that we created – PaintCare – has increased the number of collection sites to 102 from the 15 available pre-program. The majority of these sites, 75%, are paint retail stores – so consumers and contractors can bring their leftover paint back to the same places they buy paint – 7 days a week, retail hours. Over one million gallons of paint has been collected with 100% of that paint being recycled or beneficially reused. PaintCare has also recycled the paint containers collected, resulting in 107 and 131 tons of plastic and metal cans, respectively, being recycled.

As you are aware, the impetus for the pilot derives from a several year multi-stakeholder Paint Product Stewardship Initiative. The ultimate goal of this initiative is a nationally coordinated system, for the management of unused paint. Since the pilot began in OR almost three years ago, the program has also begun operating in California and will begin operations in Connecticut and Rhode Island this year.

Thus, we support repealing the sunset date on the program and making PaintCare permanent in Oregon. In advance, thank you for your support of this legislation.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Mary Ellen Shivetts'.
