

**Testimony to State of Oregon
House Committee on Consumer Protection and Government Efficiency
In Support of HB 3160**

March 19, 2013

The Oregon State Bar states “The Unlawful Trade Practices Act prohibits many practices, most of them involving some form of deception or misrepresentation by the seller.” There is no justification why the insurance industry should be exempt from such a standard.

HB 3160 reflects a basic principle for a just society. Please move this bill ahead to the full legislature.

Thank you very much.
