

I am a very concerned voting citizen of Brookings, Curry County, Oregon.

These two bills that are being heard on Tuesday, March 19th, will be very detrimental to our local economy. We rely heavily on tourism since the government has closed off the harvesting of our trees. By closing off more access to historically open access lands, we will lose many tourism dollars. People travel here to enjoy our lifestyles, the rivers, the oceans and our state lands. Without public input on public lands, we Oregonians are being deprived of our rights.

If these two bills are passed, how will enforcement be monitored? It will create another bureaucracy and the state can't afford it.

These bills will increase government intervention in our lives and we have enough already.

Please vote NO on these bills.

Thank you,

Dianna Blazo
