

Please oppose SB12 and HB 3251.

This bill will cause hard ship on any disabled individual wanting to use our great outdoors. There are many US veterans, along with general citizens, that use small motorized vehicles to access our wonderful lands and now will become limited greatly by this terrible bill. I believe our disabled citizens are entitled to the wide open spaces, as we are. As a natural citizen of these United States, I am tired of all my freedoms being taken away. Every new law that is voted in takes another freedom away! Please stand up for America and Freedom.

Oregonians deserve freedom too!

I believe my letter should be made part of the public permanent record.
