

## Support House Bill 2345A

House Bill 2345A is an important step to create a market to rebuild our crumbling infrastructure.

SEIU Local 503 supports House Bill 2345A because we all want to create good jobs here in Oregon.

House Bill 2345A also establishes appropriate goals for the protection of workers, investments and the long-term health of this important market.

House Bill 2345A is an innovative, forward-looking approach to financing and assembling projects that will benefit all Oregonians.

“Workers in the US and Canada want to see more of their pension funds put safely to work at home, helping rebuild our domestic infrastructure, expand our economy, and rebuild the middle class by creating new and lasting jobs. To keep the promise of retirement security for a new generation of workers, our pension funds need the strong and reliable long-term returns that investable infrastructure can deliver, but until now, institutional investors have had a hard time finding attractive infrastructure investment opportunities in North America. SEIU supports the establishment of the West Coast Infrastructure Exchange (WCX), which promises to bridge the gap between investors and domestic infrastructure needs while protecting the interests of working people and our environment.” Mary Kay Henry, President, Service Employees International Union
