

## Support HB 2134B

### Establishing Uniform Standards for Race, Ethnicity & Language Data *Better Service Delivery, Improved Outcomes, Lower Costs*

HB 2134B provides consistent and accurate data on demographics and disability status in health and human services to improve health outcomes for all Oregonians. Providers, DHS, and OHA would benefit from the tools to improve care quality and target care effectively

HB 2134B would have Oregon join the ranks of other states, (including California, Massachusetts and Minnesota) to implement best practices in data collection on race, ethnicity and language. This is an important step for better health for all Oregonians!

### HB 2134B has the support of many organizations, including:
