To whomever it may concern,

O'Neill Electric Inc. is in full support of the proposed amendments to House Bill 2464. We believe that current laws allow people to cheat on taxes, wages, workers compensation, and they employ irresponsible behavior that opposes proper conduct that contractors should practice. By asking 1099 reporting for all entities, we are more likely to catch the scofflaws. In doing so, it will have people thinking twice before conducting such practices.

Sincerely,

Maurice Rahming

President of O'Neill Electric Inc.
