

Testimony on HB 4070
House Committee on Health Care
February 12, 2014

In regard to HB 4070, I concur with both the Oregon Board of Dentistry and the Oregon Trial Lawyers Assn. in opposing this bill.

Of all professions from which the public benefits by transparency, those related to a person's health are most important. Please do not roll back transparency requirements; doing so is the opposite direction in which we want to go.

Thank you.
