

Hello,

My name is Adam Richartz and I am from Hillsboro, Oregon.

I am 19 years old and have been using electronic cigarettes for a year to help curb my appetite so I do not over eat and for stress management. My father has also been a chain smoker for over 20 years.

Recently I bought him an E-cigarette to help cut back his consumption of true tobacco. He was smoking over 2 packs a day and has now cut back to about half a pack. I oppose HB 4115 (ban E-cigarette use everywhere where smoking isn't allowed) due to the lack of studies that show true negative effects from vaping electronic cigarettes.

Thank you

Adam Richartz
