

Hello,

I am an adult Oregon resident that would like for you to consider my plea.

I am a 42 year old single mother of a teenage son. I was a smoker for 25 years. Thanks to vaping I quit smoking! I vape eliquids that are NICOTINE FREE. I have discussed my use of vaping with my son, and he approves of it as an alternative for me to smoking cancer causing cigarettes. He does not approve the use of cigarettes. He has no interest in vaping. I would appreciate it if you would not try to restrict this life saving alternative for me, and my family.

I have been vaping for over 3 years with absolutely no adverse health effects. I enjoy the option of vaping in special cafés dedicated to the cause. Vaping has saved my life, and made my son happy that mommy is no longer a smoker.

Please do not try to ban all things related to vaping. It has been the best thing to happen to the modern world. It is the best way to keep people from smoking cigarettes.

I am 42 years old and can personally attest to all of the benefits that vaping has brought to my families life.

Thank you for your consideration,

Brooke Russell
