

I request that you give this to the Rules Committee Members.

The first bill is **SB1515** and is a proposal to explore the feasibility of Internet Voting. I am urging a **NO** vote

The other is **SB1564**.

I want to support this great bill with a big **YES!** This would restore some of the accounting processes that were taken out in 2013. Also it would give observers in each county additional opportunities for ballot observation of defective ballots. Ballots that must be enhanced or duplicated. This will improve ballot accountability.

Thank You for your consideration,

Gary Ernst
