

Testimony in Opposition to SB 1515

To: Senate Rules Committee
From: Wendy Frome, Albany
February 18, 2014

Please do not move SB 1515. It would be wasting taxpayer funds to study internet voting. We need to be working to make our elections more secure, not spending money to study less-secure methods of voting.

Another problem with this bill is that it is terrible timing for the State of Oregon to consider anything new technological. The Secretary of State's website was recently hacked by an unknown intruder and has been down for over a week and Cover Oregon is an embarrassment, because of its failure.

The citizens of Oregon are losing patience with government, and to put more of their taxes toward another wasteful study would be unwise.
