

Dear Chair Doherty and Members of the Business & Labor Committee,

I am writing in support of Senate Bill 1520. As owner of a house in Corvallis for which rooftop solar panel installation is not viable, I have been looking for other ways to support local solar energy development. I believe that SB1520 would establish a legal framework in which local organizations can be created that will allow me to help fund solar developments in my community. I am aware of many other people in the Corvallis region who are in the same situation and who would also benefit from SB1520.

I urge you and the Committee members to support this bill.

Regards,
Thomas Ekstedt
Corvallis, OR
