

Co-Chairs Steiner Hayward and Smith:

Sen. Shields will not be able to attend the Joint Committee On Ways and Means Subcommittee on General Government hearing tomorrow morning, but he would like to enter this email into the record as written testimony in support of SB 1521A.

From Sen. Shields:

The credentialing and recognition of interior designers in the State of Oregon is a worthy topic of consideration for the Oregon legislature. Although the Senate General Government, Consumer and Small Business Protection Committee could not reach agreement on the mechanism to recognize interior designers, we did agree that it is time for the interested parties, both opposed and supportive, to finally sit down together and report back to the legislature. A task force is the best means by which to accomplish this task. I urge your support for SB 1521A.

Sincerely,

Sen. Chip Shields
District 22, N/NE Portland
