

HB 4110

Relating to health care

As amended, HB 4110 prohibits an insurer from denying reimbursement under a health benefit plan for covered services provided to pre-adjudicated persons in the custody of a local supervisory authority. The bill requires insurers to reimburse local supervisory authorities at no less than 115 percent of the Medicare rate for the services provided. The measure details specific rights and prohibitions of insurers related to reimbursements and the provided services, and prohibits a public body from paying plan premiums on behalf of a person in the custody of a local supervisory authority.

The Capital Construction Subcommittee recommends HB 4110 be amended and reported out do pass, as amended.
