Columbia River Pilots support Senate Resolution 201A

The Columbia River Pilots support passage of Senate Resolution 201A, which designates Clatsop Community College as Oregon's Maritime College. As a primary stakeholder in the regional maritime industry, we believe the maritime education and training provided by CCC plays a critical role in developing a skilled maritime workforce. As Oregonians, we are very proud to have this specialized institution in our state.

The passage of Senate Resolution 201A will grant Clatsop Community College an important designation that will enable the institution to enhance recruitment efforts, compete for federal maritime training grants and further develop its maritime program.

The Columbia River Pilots urge adoption of Senate Resolution 201A.

**FROM THE DESK OF
SENATOR BETSY JOHNSON**
