WHAT THE MEASURE DOES: Allows a county to impose restrictions on marijuana facilities that impose reasonable limitations on the hours that a medical marijuana facility may operate, reasonable limitations on the hours of operation, reasonable zoning restrictions, and reasonable conditions on the dispensing of medical marijuana.

ISSUES DISCUSSED:

- Local control
- Reasonable regulation

EFFECT OF COMMITTEE AMENDMENT: Replaces the bill.

BACKGROUND: ORS 475.304 directs the Oregon Health Authority to establish by marijuana grow site registration system to authorize the production of marijuana by marijuana card holders or their caregivers. ORS 475.314 directs the health authority to establish by rule a medical marijuana facility system to authorize the transfer of useable marijuana from a marijuana cardholder, caregiver or person responsible for the marijuana grow site to a medical marijuana facility or from a medical marijuana facility to a medical marijuana cardholder or caregiver. These statutory provisions preclude county and city government from regulating medical marijuana.
