BACKGROUND: Current law provides guidance on the sale of manufactured dwelling parks to tenants of the park. The law specifies that owners must give notice of potential sale to tenants if a tenants association has provided prior notification of interest in purchasing the park. Current law also gives tenants a 14-day right of first refusal on purchasing the park. Housing advocates argue that current statute is vague and difficult to implement when tenants attempt to purchase a park.

House Bill 4038-A creates a new process that specifies how tenants may compete to purchase a manufactured dwelling park. The measure requires landlords to give notice to all tenants and tenant associations prior to listing the park or selling the park. Tenants then have 10 days to notify the owner of their interest in the park. The measure supplies additional details on the process for tenant purchase of a park.
