

## **VOTE YES ON HB 5032**

AOC is a proud partner of the Oregon Military Department, specifically the Office of Emergency Management. Our emergency managers, 9-1-1 directors, and sheriffs work closely with OEM to make sure that our communities are safe everyday and during disasters.

We have continued to advocate for full funding of the 9-1-1 program and OEM. AOC is also supporting OEM's efforts in moving to Next Generation 9-1-1 technology to make our public safety communications even more efficient.

We hope that the committee and legislature will continue to make sure that our 9-1-1 system is funded at an adequate level.
