Having just read House Bill 2503 I wish to stand in support of the Bill. As a Born and Raised Oregonian that Hunts, fish's, prospector, miner and country loving person I see House Bill 2503 as a good start. I believe that not department or government agency other than those Elected by the People have the authority to write laws or regulations without first receiving a vote of approval by the people. Thus all laws, rules and regulations must be presented to the people for review and written, voted and passed by the Legislators of the State.

Respectfully Signed
