RE: HB 2642

Dear Representative Huffman,

I am a veteran in the medical spa Industry. My career encompasses over 25 years of experience and advanced training. I have been an independent contractor with Plastic Surgeons, Medi- Spa's and 5 Start Luxury Spa's all over the Pacific Northwest. I find myself in an elite group of professionals in The Gorge. We take our education and training very seriously. Safety is our utmost concern.

I support HB 2642 and encourage you to do the same. This will establish training & safety in regards to medical esthetics and lasers. Doing this gives us the credibility in our profession. We will be able to continue and foster official working relationships with a healthcare provider as well.

Sincerely,

Melissa Still
