

**Subject:** Support for Bill 2642

We at Olena's Spa and Laser have been in business for over 11 years now and have done thousands of laser treatments for our clients over the past several years. And we support the above bill, and would like to offer any help that we can go see that it passes. We have been successfully serving our clientel at our Portland establishment, and have searched out additional knowledge on our own about lasers to make our work more effective and safe. We are members The "American Society for Laser Medicine and Surgery" or ASLMS and one of our estheticians is a member of the "American Board of Laser Surgery", or ABLs, and we have had specific training in laser safety and non-ablative treatments at the "Beckman Laser Institute" at the Irvine campus of California University.

Thank you,

Olena Trone
