

The following list of persons provided statements to the House Health Committee in support of
HB 2642:

Diane Landon	Serina Z Dugan	Deborah Stowell
Alishia Novey	Heidi Brancato	[mailto:jjmiller12040456@gmail.com]
Jason Hayter	Quasei Fannin	Jesse Quibrera
Sean O'Neil	Kela Covey	Ron Reed
Edward Julian	Mike Drews	Danelle Pack

- Please support HB2642 for good jobs for women in Oregon! I am writing as a consumer of esthetic services and want to keep them affordable! Thank you.

Diane Landon

- If the Oregon medical board chooses to ban lasers and aestheticians from using them, they will shut down thousands of men and women in business. This will significantly impact our economy and take millions of dollars out of the state of Oregon. I, as a consumer, would not be able to afford the services if a doctor was in control. Not to mention that medi spas also provide employment for other unemployed. The house bill would provide higher education for advanced laser technicians.

Thank you,

Danelle

- I am fully in support HB2642 as an Esthetician or a consumer of laser services or in support of jobs and sensibility that it stands for. I agree it needs regulation but it is not need to be taken away. it seems that this industry has been going on check for quite some time. And there has been no problems. Or at least as yet I am aware of. But I do believe the people do how to write the jobs and if they're already doing them then regulations key not removal

Mark Drews

- I Edward Julian support HB2642 as a consumer of laser services and support the workers doing it as a job
- I support the house bill 2642. If the Oregon board chooses to ban lasers and aestheticians from using them, they will shut down thousands of men and women in business. This will significantly impact our economy and take millions of dollars out of the state of Oregon. I, as a consumer, would not be able to afford the services if a doctor was in complete control. Not to mention that medi spas also provide employment for other unemployed. The house bill would provide higher education for advanced laser technicians.

Ron Reed

- I would like this to be considered for public comment.

I support HB2642 as a consumer of laser services, but also as a receptionist for a spa and laser center. Having taken a laser safety course as a part of our spa's consumer safety protocol, I fully support this bill, which provides jobs for women in Oregon and continues to protect the consumer of these services.

Thank you for your consideration.

Kela Covey

- To whom it may concern,

I support House bill 2642. If the Oregon medical board chooses to ban lasers and aestheticians from using them, they will shut down thousands of men and women in business. This will significantly impact our economy and take millions of dollars from Oregon residents. I, as a consumer, would not be able to afford the services if a doctor were in control. Medi spas also provide employment for those who otherwise wouldn't have jobs. The house bill would provide higher education for advanced laser technicians.

Sincerely,
Sean O'Neil

- I am a consumer of a laser services and I go to a medical spa to have my services done! I have never had a problem a burn or have been scarred and it's an aesthetician who provides services for me! If this bill does not pass I will not be able to afford to have laser tattoo removal services done anymore! I am currently trying to get into the Marines and it is not acceptable to have tattoos that are noticeable. My aesthetician has been very reasonable and I can afford to have the treatments done so that I can help serve our country! Please pass this bill!

Jesse Quibrera

- As a consumer of laser services, I support House Bill 2642.
I am in support of jobs for women in Oregon.

Sincerely,

Quasei Fannin

- Hello, my name is Jason Hayter. I am a consumer of laser services and I support HB2642 and also support women in business as well.

Thank you for your time.

Jason Hayter

- I support HB2642 as an Esthetician or a consumer of laser services or in support of jobs for women in Oregon! (today) that is all it has to say.

-

Hope you have sunshine over there☺

mailto:jjmiller12040456@gmail.com

- I support house bill 2642!
For many reasons! I will also be at the meeting!

Thank you so much!

Heidi Brancato

- I support HB2642 as an Esthetician or a consumer of laser services or in support of jobs for women in Oregon! You can add to it or take away from it if you want to but (today) that is all it has to say.
Hope you have a beautiful day!
And thank u for your support!!
And by the way your letter will become part of the record that will complete the history on the making of House Bill 2642 I believe tomorrow they vote!

Alishia Novey

- I m a consumer.
I support house bill 26-42

Deborah Stowell

- My daughter is a licensed esthetician in a medi spa clinic Bend, Oregon. They serve the community with services that so many enjoy and need.
My daughter supports her family a an esthetician and does a terrific job. She has kept her license almost 9 years. Please do not take the license from these roles and destroy their livelihood as estheticians.

Serina Dugan
