Subject: Atvs on road

I live in a rural county (Harney) and use a atv/utv on gravel and paved roads quite a lot so I am concerned that if this bill passes to restrict our driving on paved roads would effect me greatly ranching is the main business out here and you might have a highway going right through your property so you need to drive across the highway or down it to do your work and a atv/utv has become the best way to do the work on the ranches, people here are quite responsible in there activities being raised at an early age to do a grown ups work

Thankyou,

Sincerely,

Walt Sitz
