

Access and success at the college level

"Other people had promised me that they were going to help me with financial aid and getting into college. But they never followed through and it all ended up on me. Future Connect never gave up on me and I'm in school because of them."

The Future Connect Pathway

"Future Connect has been there to guide me through college in a way I didn't think was possible. I didn't have a person in my life who I could just talk to about college. I now have a coach who I can text/call/email to ask ANY questions. That personalized attention has made me feel confident with college. Future Connect has made me feel like a part of a community."

Just one student's story...

"Three years ago, a group of people changed my idea of what a college education is about. Future Connect has taught me that I have something to offer the world, that I should not be afraid to strive for what I want the most, and to never doubt that I am capable of extraordinary things. The Success Coaches are like my new family; family who support me and can see the potential that even I couldn't see within myself."
