Vic Gilliam
900 Court St NE, H-389
Salem, OR, 97301

Dear Representative Gilliam,

I'm one of your constituents here in Silverton. Our State's political issues have led me to write you this day in the interests of securing the long overdue issue of pursuing clean energy sources. Some of my friends and neighbors are downright angry about this, and wonder why we haven't done this sooner.

I urge you to support SB 324 for 2015 because our future depends on pursuing this worthy cause of cleaner fuel and energy sources. Oregon's resources and our future depend on the wise research and acquisition that SB 324 provides. It's the way forward, as it limits price inflation to 4% and provides a path to a clean thriving economy.

I too share your concern for the water and the proper management of our water sources as you mentioned in a meeting we recently had. I've researched on-line the difficult and frustrating situations that are occurring. I believe in these tough and serious times that we can find a way to manage all these important climate change/ resource problems facing us now and in the future.

Thank you for your consideration,
Respectfully,

Kristen Sweeney
