PAC00019

BikePAC of Oregon Inc. Supports SB 424, for the simple fact that many of us are unable to safely use e10 in our machines.

As with the marine, aviation, and emergency vehicles, ethanol reduces fuel efficiency, shortens the life span, and safety of our engines.

Many vehicle's warranties warn against the use of this type of fuel.

We support the idea of finding alternative ways to reduce emissions without the extra expense of maintenance, or our safety on the road.

6 Oregon gas stations are selling E 15

Portland

Milwaukee

Pendelton

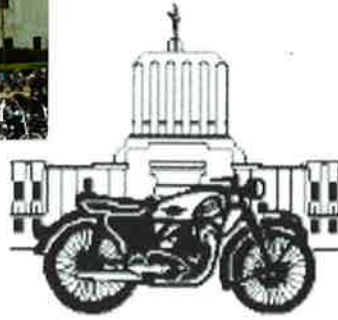

2 in Eugene

Bend
