Number of Oregon Cows' Manure Being Used as Digester Feedstock

# Takeaways:

- Manure Biomass Tax Credit Program is working
  - Brought new businesses to Oregon
  - Rapid Expansion of digester industry to 8 sites/17 dairies
  - All digesters funded by Biomass Tax Credit are still in operation
- Manure Digesters Provide Benefits
  - Oregon digesters remove greenhouse gases equivalent to over 38,000 cars
  - Renewable, local electricity for over 7,000 homes
  - High wage rural jobs in operations and maintenance
- Manure Biomass Tax Credit is a good investment
  - Industry can be stable and expanding even with 30% cut in manure tax credit rate
  - Please pass HB-2449 with amendments #1-4.
