

I am happy to see a bill regarding the elimination of Daylight Savings time. I've always considered it asinine to have to change the clocks twice a year. There are still only 24 hours in a day, no matter how you cut it. For a time we lived in Arizona. Arizona does not observe Daylight Savings Time. I loved the fact that I did not have to manually change all the many clocks in the household.

We urge the passage of this bill. It has our whole hearted approval.
