

We own two vineyards, and have been thrilled DST was on again.
Please think about us farmers (who have day jobs in offices) and need EVERY HOUR of daylight we can get in the "summer".

I LOVEEEEEEEEE DST. Am always despondent to see it leave due to less productivity.
Please KEEP daylight savings time.

Also, everyone in my "day time job" gets giddy knowing DST is coming. More hours with their kids outside, their biking or jogging or walking.

We all WANT Daylight Savings Time. Please preserve it.
