Re: HB 2762

MEASURE: HB 2762
EXHIBIT: 3
HOUSE ENERGY & ENVIRONMENT
DATE: 3-10-15 PAGES: 1
SUBMITTED BY: Wednesday Peck

Hi, my name is Wednesday Peck and I go to Sunnyside Environmental School in Portland, Oregon. I am 10 years old and I am a 4th grader.

According to the Centers for Disease Control small amounts of styrene can be transferred to food from styrene based packaging material, such as school lunch trays. When you breathe air containing styrene, it will rapidly enter your body through your lungs. Styrene in food with a lot of water may also enter your body through the digestive system.

Thank you for your time.
