

I watched the video of Alfonso Bernal, he said all that needed to be said in 3 minutes. I hope that you all really take in his words, for not funding education at good level, means you all are telling students that education is not that important. At the same time so many programs and ideas are implemented which cost districts extra funds that they don't have. Oregon should not be 49th, Oregon should #1 always. Give these kids the education they deserve and most importantly need. Don't let THEM down!
