As HB 2936 related to Sobering Centers, is considered, I want to add OnTrack's name to the list of supporters. As a treatment provider in Jackson and Josephine Counties, we understand the need to provide shelter in a safe, supportive environment for persons who are, due to their level of intoxication, assessed as at risk and need a safe place to sober up available 24-7.

The alternative are far too costly and not in the best interest of the clients or the community.

Respectfully,

Rita Sullivan, Ph.D
