Subject: Support SB 777

Thank you for sponsoring a state level legislation to establish an Oregon ABLE Program. [SB 777](#). Our disabled citizens already have less flexibility and opportunities than other individuals. Although Social Security is a much needed benefit, it also restricts them from being able to save for health care, when medicaid does not pay, or saving to improve their future, whether getting better education, housing, or support for their needs, because of the regulations.

Again, thank you for sponsoring this bill to help our more vulnerable citizens.
