

Maryland: Money spent per student over the last 25 years.
 Nearly \$15,000 per student¹

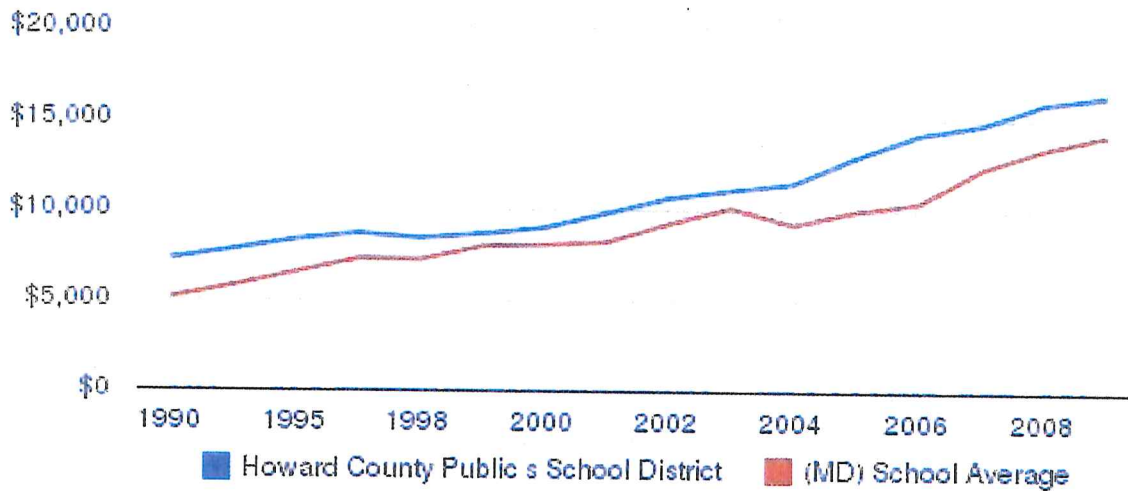

Lebanon, Oregon: \$8,679 per student (25 years ago we were at \$7,000). 25 years ago, Maryland and Oregon spent the same dollars per student (\$5,000). They have tripled their support for schools in 25 years while we stagnated. Inflation during that time (cost of living) rose from \$100 to \$288. This pattern of de-investment for public education appears in state comparison after state comparison. **No other state in the nation has a worse twenty five year track record for funding public education than Oregon. Not one. Period.**
