

RE: Comments on SB 206, SB 264, SB 265

Chairman Edwards and Committee Members,

Thank you for the opportunity to comment on the proposed Senate Bills.

All three bills are a premature effort supporting the "Klamath Water Agreements," which have NOT and very likely NEVER will pass as Federal legislation.

I am opposed to all three bills. Senator and Representative Whitsett are representing us in the district exactly as they should. Both are very knowledgeable and have had a great amount of personal contact with all sides of the issues and have made a very informed decision to oppose these three bills. Do we need a water settlement? YES. The current "package deal" simply does not deliver what is required.

Thank you for your consideration.
