To: Rep Witt; Gallagher Chuck; Rep Holvey

Subject: House Bills 3123, 3482, 2589

I would like to thank Rep. Holvey for introducing these three important bills this session to reduce the application of dangerous pesticides in Oregon.

I have heard first hand from neighbors, their children, and their pets and animals have been harmed by the misuse of these chemicals. I encourage the House Committee on Agriculture and Natural Resources to move all of these three bills forward: HB 3123, HB 3482, HB 2589.

It is time to make Oregon a healthier place to live for all.

Respectfully,

Barbara Bochnovic
